Cable organisation

Put an end to cable chaos! There are many possibilities to sort and arrange cables. The area of cable management is becoming increasingly important in Delock's product portfolio. The most important application areas and products to organise cables are explained here.

What does cable organisation mean?

Cable organization means arranging, sorting, marking, fastening, and bundling cables. The aim of cable organization is to avoid cable chaos, provide clarity, and protect cables from damage, dust, and water. In addition, tripping hazards are prevented and safety at work and home is increased.
