

20m Fibre Optic Hybrid DisplayPort 1.2 Cable

No.: 38462

Description

Our Fibre Optic Hybrid DisplayPort cables are the perfect solution for easily extending DP digital signals over incredible distances. Perfect for professional and home cinema situations they feature fibre-optic technology which allows transmission distances that far exceed the maximum supported by standard copper only cables.

The transmitter and receiver modules are each equipped with standard DP Male connectors for connecting to the source and the display. The modules are connected together by a fibre and copper solution.
