Technical details

Wouldn't it be great if you could connect your VGA monitor or projector to a DVD player, set top box, camcorder or games console? Or, why not give an old monitor or projector a new lease of life?

The LINDY VGA to Video Converter allows you to connect any Composite Video or S-Video equipped device to your VGA display. It supports both PAL and NTSC formats, is simple and easy to set up and gives fantastic results thanks to a high quality scaling, colour, contrast and brightness function. All without the extra need, expense and hassle of finding a new TV!

If you also use a , you can even switch between your computer and a video device.
