

Passive DisplayPort to HDMI 4K Adapter Cable, 2m

No.: 36922

Description

- Supports video-mirroring and extended desktop modes
- Connectors: DisplayPort Male to HDMI Male
- Compliant with DP 1.2 specification and HDMI 1.4a
- 2 year warranty

This cable allows you to connect your DisplayPort equipped computer to a 4K HDMI display or projector.

Notes about audio support:

Audio output over HDMI is only supported when the graphics card of the notebook or desktop computer supports audio output over DisplayPort. Several on-board graphics adapters such as Mobile Intel 4 Series Express Chipset in Notebooks (i.e. Dell E6400) do NOT support audio output over DisplayPort, even when HDMI support (Intel High Definition Audio HDMI Service) is installed for audio controllers. In such instances a separate audio connection has to be set up.

Package Contents:

DP to HDMI Adapter Cable

Technical details

Supports DisplayPort and HDMI resolutions:

- 3840x2160 60Hz 4:2:0 8bit
- 3840x2160 30Hz 4:4:4 8bit
