

SCART to HDMI 720p HD Upscaler

No.: 38101

Description

- Perfect for connecting older SCART equipped DVD players, set top boxes, VCRs etc to HDMI displays
- View audio and video from a SCART source in 720p
- Plug & Play - simple to install and use
- Upscales to HDMI 1.2 at 720p
- HDCP 1.1 & DVI 1.0 compliant
- Compatible with RGB and composite video capable source devices
- Supports NTSC and PAL systems
- Multi country power supply included
- 2 year warranty

This compact unit accepts audio and video signals via a SCART input and upscales them to a HDMI digital 720p video signal. SCART stereo audio is also incorporated into the HDMI signal.

This simple to use device allows older SCART equipped devices to be connected to the latest flat screen HDMI equipped HDTVs and monitors. A DVI-D display may also be connected when used with a suitable HDMI to DVI Adapter cable.

For connection to RCA devices the adapter [35628](#) can be used.
