

USB C Type Port Locks 4x + 1 key

No.: 40459

6 locks + 1 key

Description

- Physically blocks access to a USB Type C / Thunderbolt 3 port
- Quick and easy to use
- Consists of 4 locks and 1 key
- Also available in packs of 10 (without key)
- 2 Year Warranty

With the LINDY USB Type C / Thunderbolt 3 Port Blocker, you can quickly block open ports and easily prevent users from connecting cables, devices or inserting foreign objects without permission.

To use, simply attach a blocker to the key and plug it into the port. Hold the blocker in place and pull away the Key. To remove, simply insert the Key back on to the blocker and pull it away. Easy!

With this neat little device, system administrators can physically prevent users from connecting Pen Drives, Mobile Phones and other USB Mass Storage Devices to their computers to copy data and introduce viruses.

NOTE for MAC computers: DO NOT USE WITH MACBOOKS!

Type C MacBook sockets are slightly larger or smaller than conventional ones and therefore do not provide the correct support for these port locks!
