

CROMO Mini DisplayPort Cable, 5m

No.: 41544

Description

- High quality, fully shielded cable with 24K gold plated contacts
- Stylish chrome plated connector hoods
- Supports resolutions up to Ultra HD 4K 3840x2160 60Hz, including stereoscopic 3D
- Full support for 8 channel, uncompressed 24bit digital audio
- 10 year warranty

This superb cable benefits from advanced design and construction to provide the best possible performance and reliability. It's 24K gold plated connector pins ensure superb signal integrity and corrosion resistance whilst the shielded cable design allows consistent performance, even over longer transmission distances.

DisplayPort - The new standard for maximum display performance

DisplayPort is the next generation digital display interface standard designed to replace DVI, LVDS, and eventually VGA. DisplayPort delivers a higher performance, enables exciting new monitor designs and improves digital display connectivity.

All Digital

No compression, no conversion, pure digital direct from the source as it was meant to be seen and heard.

One Cable

All of your HD video and audio in one cable. Say goodbye to cable clutter. One DisplayPort has over twice the capability of one single channel DVI cable.

Technical details

- Supports resolutions up to Ultra HD 4K 3840x2160 60Hz, including stereoscopic 3D
- Supports optional 8 channel audio with sampling rates up to 24bit 192kHz
- DisplayPort 1.2
- Supports 128bit AES DisplayPort Content Protection and 56bit High-bandwidth Digital Content Protection
- 24K gold plated connector pins
- Bandwidth:17.28Gbps total in High Bit Rate 2 (HBR2) mode
- 8B/10B data transmission

- Supports colour depths of 6, 8, 10, 12 and 16 bits per component
