- Allows connection of 2 Type A and 2 Type C peripherals
- Compatible with all USB Type C equipped computers
- Features a USB Type C Female port for Power Delivery up to 100W and data combined
- 2 year warranty

The Lindy 4 Port USB 3.1 Type C Hub allows the user to connect 2 USB Type A and 2 USB Type C peripherals to a USB Type C equipped notebook or Macbook with data transfer speeds up to 10 Gbps. The hub features a combined USB Type C data & power port which supports power delivery up to 100W while transmitting data through a single cable. Power delivery 3.0 supports bidirectional power up to almost 100 Watt and enables higher voltage and current values to be negotiated between the connected devices - host or peripherals. One of the USB Type A ports also features the battery charging standard 1.2, which is able to deliver 5V and up to 1.5A for faster charging compared to a standard USB port.

The Type C connectors reversible design was developed to find a connection regardless of which way the cable is inserted into the port and with 'Plug and Play' installation, no drivers are required, therefore this hub can be installed with minimum difficulty, ideal for both professional and first time users.
