This Lindy USB 3.0 Docking & Clone Station allows users to easily connect and/or clone high performance 3.5" or 2.5" SATA HDDs and SSDs without having to install the drive in an enclosure or computer. It is an ideal tool for system installers and integrators, computer technicians and IT departments for quick backups or data recovery.

The Docking & Clone Station makes bit by bit clones (including Operating System and partitions) of the source disk onto the target disk, making it perfect for upgrading to larger capacity HDD or SSDs. The four bay design allows several hard drives to be connected simultaneously, so that data can be copied between multiple drives of different types as 2.5" and 3.5" SATA drives are supported natively.
