

USB 3.1 Typ C DP Adapter Converter

No.: 43193

Description

This product has been discontinued and replaced by Part No 43245.

- Converts a USB 3.1 Type-C port to a DisplayPort
- Requires DisplayPort Alternate Support by the USB 3.1 Port/Bus
- Compatible with Thunderbolt 3
- Supports resolutions up to UHD 4K 3840x2160p 30Hz
- Plug and Play installation, no drivers required, Bus-powered
- 2 Year Warranty

The LINDY USB 3.1 Type-C to DisplayPort Adapter Convertor allows you to quicky add external video capabilities to devices featuring the USB 3.1 Type-C port with support for DisplayPort Alternate Mode.

Installation is simple as no drivers are required and the Type-C's reversible design means that you do not have to pay attention to which way the cable is inserted into the port.
