

HDMI to USB 3.0 Video Capture Device

No.: 43235

Description

- Capture video and audio from a HDMI source device
- High USB Bandwidth, enabling video capture up to 1080p@60Hz
- Compatible with Windows 7, 8 and 10, Mac OS X 10.8 and above (not compatible with macOS 10.14)
- USB Bus-powered, no external power supply required
- 2 Year Warranty

The Lindy HDMI to USB 3.0 Video Capture Device is designed to capture video and audio from any* HDMI source device. 60Hz capture has the benefit of double the frame rate over older 30Hz capture devices which allows a smoother and clearer video to be saved or viewed. Plug & Play installation means that you don't have to worry about complex driver installs for devices with Windows 8, macOS X 10.8 or above, simply insert the capture device and the installation will begin automatically by your operating system. Since the driver is built in to your operating system, you will be able to use your preferred software, making it ideal for use with computers, consoles, camcorders and security systems.

Please note: No software is provided with this capture device, 3rd party software must be used. We have tested Open Broadcaster Software, Wirecast, Adobe FMLE, Daum PotPlayer, Skype and also the Windows 10 "Camera" app.

*No support for HDCP content
