Please note: TosLink cables are not included, we recommend you use cables from the LINDY or cable range

[2 Way TosLink Switch](#), [SPDIF to Analogue](#) and [Analogue to SPDIF](#) converters are also available.

Technical details

This very compact splitter allows you to connect a single digital optical SPDIF Toslink source to two different TosLink equipped devices such as an HD TV and AV amplifier.

Suitable for use with your PS3, CD/DVD Player, set top box, PCs or other Hi-Fi and home cinema equipment.
