

# ROLINE Wireless Charging Stand for Mobile Devices, 10W

<b>Product No.</b>	19.11.1010
<b>Manufacturer</b>	ROLINE
<b>Manufacturer No.</b>	19.11.1010
<b>EAN (single piece)</b>	7630049610415

**Wireless Charging Stand for matching smartphones or tablets - the two integrated coils with up to 10W in the charger allow a smartphone to be charged in "portrait" or "landscape" mode, for example.**

- Charges a Qi-compatible smartphone or other suitable Qi device
- Two charging coils for up to 10W power: for charging in "Portrait" or "Landscape" mode of your smartphone
- Plug & Play - No driver required
- Ideal for e.g. office or bedroom
- Integrated LED display
- Colour: black
- Scope of delivery: Qi charging station, USB charging cable, operating instructions

## **Qi wireless charging:**

Qi is an interface standard for inductive power transmission (wireless charging) of the "Wireless Power Consortium". Members of this consortium include companies such as Apple, HTC, Samsung, Sony and many others.

How wireless charging works: Inductive charging requires two devices, a receiver (such as an iPhone 8/X) and a transmitter (charging station). The current is transmitted via coils that generate a magnetic field. The smartphone can absorb energy via this magnetic field and thus charge the integrated battery.

## **Technical specifications**

Manufacturer	ROLINE
Product group	Mobile accessories
Product type	Charging Station
Colour	black
Scope of delivery	Qi charging station, USB charging cable, operating instructions
