

ROLINE Wireless Charging Pad for Mobile Devices, 10W

Product No.	19.11.1011
Manufacturer	ROLINE
Manufacturer No.	19.11.1011
EAN (single piece)	7630049611214

roline[®]
Designed for Professionals

Wireless Charging Pad for wireless charging of Qi-enabled smartphones - the integrated coil with up to 10W in the charger allows the device to be charged very quickly and efficiently.

- Charges a compatible smartphone or other matching Qi devices
- One charging coil for up to 10W power
- Plug & Play - No driver required
- Ideal for e.g. office or bedroom
- Integrated LED display
- Colour: white

Qi wireless charging:

Qi is an interface standard for inductive power transmission (wireless charging) of the "Wireless Power Consortium". Members of this consortium include companies such as Apple, HTC, Samsung, Sony and many others.

How wireless charging works: Inductive charging requires two devices, a receiver (such as an iPhone 8/X) and a transmitter (charging station). The current is transmitted via coils that generate a magnetic field. The smartphone can absorb energy via this magnetic field and thus charge the integrated battery.

Technical specifications

Manufacturer	ROLINE
--------------	--------

Product group	Mobile accessories
Product type	Charging Station
Colour	white
Scope of delivery	Charging station, USB Type A connection cable, power supply, manual
